

How to change your EduConnect Password
Visit <http://ed.sa.edu.au> at home or school
Type in your username and current password.

Then use the Change password Tool

Move the mouse over "Change password" link and left click your mouse.

You are asked to login AGAIN with the same details as before.

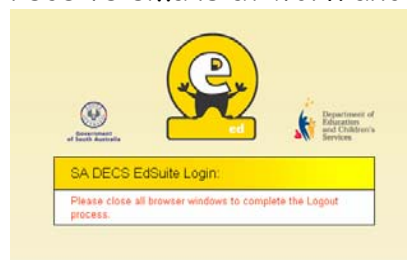

Remember your new password needs to be a minimum of six (6) characters

After you have typed in the new and a repeat of the new password - left click on the "submit" button

Your new password is now in place and you can now go on to send and receive emails at work and home.

Close down your browser - It's Done!
